

LADY MACCABEES WILL INITIATE 100

Supreme Commander, Mrs. L. M. Hollister, Here to Conduct Ceremony.

ELABORATE PLANS MADE

Members of Local Hives Have Everything in Readiness for Event.

The Ladies' of the Maccabees of the World have completed preparations for the big demonstration which will take place tonight at the Masonic Temple, on F street northwest, when a hundred or more candidates will be initiated into the order. This morning Mrs. Mary A. Van Ness, of Mt. Vernon, No. 2, and several other officers of the order visited the temple and made final arrangements for the reception of Mrs. Lillian M. Hollister, supreme commander of the Lady Maccabees, who arrived in this city this morning. Mrs. Hollister will assume complete charge of the initiation, and, incidentally, deliver an address to her sister Maccabees.

Special Features Planned.

Mrs. Melville Caswell, State commander for the Lady Maccabees of this city, Maryland, and Delaware, will welcome the supreme commander, on behalf of this city, after which Mrs. Hollister will address the meeting. One of the most interesting features arranged for the celebration is a drill by a chorus of the young ladies. This drill will perhaps be the dominant feature of the occasion. For the past month the thirty-five young ladies who will take part have been rehearsing.

Incidentally, there will be a number of little misses who will act as flower girls. These children will be dressed in snowy white raiment, and will carry clusters of white roses.

As Mrs. Hollister enters the hall the children will begin to sing, and as the supreme commander walks up the aisle the children will strew the way with flowers.

Mrs. Caswell and Mrs. Van Ness have been working for weeks in order that the function might be void of disagreeable features. Everything has practically been decided upon, and chairs have been arranged that will accommodate fully 500.

Reception to Supreme Commander. The demonstration tonight will be the most colossal affair ever arranged by the local chapters of the Lady Maccabees. For several months past the event has been looked forward to with much interest, and the officers of the various chapters have left nothing undone to assure success. Mrs. Gailway, of Columbia, No. 3, has arranged for a reception to be tendered Mrs. Hollister by the local members of the society. This event will be characterized with addresses, in which the Washingtonians will speak of the success of their individual hives.

Mrs. Hollister arrived in this city about 11:30 o'clock this morning from Baltimore. A week ago she left her home in Detroit for an extended tour of the East in the interest of the organization of which she is the supreme head.

AETNA BANK CLOSES DOORS PENDING PROBE

(Continued from First Page.)

and Receiver Lyon in studying out the condition of affairs. He said:

"The Aetna Bank and Trust Company of Butte is a good bank, and I have confidence that it will provide the means to settle all claims in Washington and continue the institution."

"Then you expect the bank will reopen?"

"That is my expectation. I have wired to Butte the facts about the situation here, and am awaiting advice."

The depositors in the local institution were composed largely of department people, though it is stated that some business men also carried accounts with them.

The only connections held locally were with the Commercial National Bank, in which small amounts were placed on deposit, and at the present time that bank held about \$1,000 of the savings bank's money. The Commercial did not clear for it, but simply took deposits.

The notice on the door this morning stating that the bank had been closed by order of the Comptroller attracted but little attention.

WISE MEN, THESE.

According to the Cologne Gazette, there are in Germany more insurance policies than inhabitants—80,000,000 policies, as against a population of under 60,000,000, which shows that a large proportion are insured in two or more companies. The indemnities paid by German insurance companies amount to about \$24,000,000 a month.

Danderine

GREW THIS HAIR AND WE CAN PROVE IT. Testimonial No. 645.

MISS LUCY MAY, 692 E. 43rd St., Chicago.

Danderine makes the hair feel like unwoven silk. It produces that silky and glossy effect so much admired. It contains healing, cooling and stimulating properties. Just what the scalp needs, and what thin and falling hair must have. It is the only hair remedy ever made that will positively produce capillary attraction and natural thickness. NOW at all druggists, three sizes, 25c., 50c., and \$1.00 per bottle.

For sale and guaranteed by HENRY EVANS 222-224 F street n.w.

PERSONAL BONDS NOT EFFECTIVE, SAYS WOODWARD

Health Officer Declares Acceptance Hampers the Work.

FURNISHING ADDITIONAL REASONS WHY, IN HIS OPINION, THE ACCEPTANCE OF PERSONAL BONDS BY THE POLICE COURT IS A BAD PROCEDURE, HEALTH OFFICER W. C. WOODWARD, IN A STATEMENT TO THE DISTRICT COMMISSIONERS, TODAY DECLARES THAT THE PRACTICE WEAKENS THE POSITION OF THE HEALTH DEPARTMENT IN THE PROSECUTION AND ABATEMENT OF NUISANCES.

When a person who has been convicted of maintaining a nuisance is not fined by the court or is allowed an indefinite time in which to abate the nuisance, his respect for the laws of the District, Dr. Woodward declares, is considerably lessened.

"So far as I am able to discover," says Dr. Woodward, "personal bonds have absolutely no effect in any way of hastening or procuring the abatement of nuisances. If the court, in the event of conviction, imposed a fine or term of imprisonment, the fine or imprisonment would not, it is true, result in the abatement of the nuisance. They would, however, teach the defendant that when he was notified to abate a nuisance, it was his duty to do so, or to arrange with the Health Officer for an extension of time if such was necessary. The knowledge of the fine would materially strengthen the effect of the Health Office notices as applied to the defendant and his neighbors learning of the incident."

"The practice of taking personal bonds increases the cost to the Government of affecting the abatement of nuisances, for which in increased cost no adequate return is derived."

"In most cases," states Dr. Woodward in conclusion, "it would be cheaper for the District, in the very beginning, to pay outright the cost of abating the nuisance and to be done with the entire matter."

Dr. Woodward's statement will be used by the Commissioners, together with others, in presenting to Congress their reasons why they deem it desirable to have a law passed requiring the court to set a definite time for the abatement of nuisances, after the defendant's personal bonds have been accepted.

The arraignment of Mrs. Jennie L. May, indicted for assault with intent to kill, causing the death of Lucien Conen, a member of the Marine Band, September 27, 1905, today was for a third time postponed on account of the illness of the accused.

Creed M. Fulton, of Leckie, Fulton and Cox, counsel for Mrs. May, said today that she will be taken to a local hospital tomorrow to have an operation performed.

LEPER RASCHID PASSES AWAY

PICKRENS, W. Va., Oct. 19.—George Raschid, the Syrian leper, died this morning. Heart failure was the immediate cause of his death, though the leprosy had made rapid strides in the last ten days.

Two of his fingers and the toes on one foot were almost off. His tongue was covered with sores and badly swollen. The officials have been notified and it is likely his body will be cremated.

HORSEPOWER COST.

The cost of a horsepower developed in steam plants ranges from \$25 per annum, reckoning 300 days running and twenty-four hours a day, upward, depending chiefly upon the cost of coal, type of engine and size of plant. To attain the low figure of \$25 per annum it would be necessary to have coal of 15,000 B. t. u. at \$1 a ton, while the plant would have to be of approximately 1,000 horsepower and be equipped with compound condensing engines. In mining and metallurgical plants of the West, the plants of 400 or 500 horsepower, and single-expansion engines of ordinary good designs, the cost of a horsepower is \$40 to \$75 per annum. In plants of 50 to 100 horsepower about \$30 per annum, or 30 cents a day, can safely be reckoned.—Engineering and Mining Journal.

Rubber Footwear

Biggest and best stock of Boots and Over-shoes in Washington—priced RIGHT.

HAHN'S RELIABLE SHOES

Protect Health and Purse

IT takes HONEST LEATHER to safeguard your health against this weather. HAHN'S SHOES will do it. Our HIGH STANDARD OF QUALITY compels us to use VERY BEST leathers in every Shoe we sell—our manufacturers realize that they'll lose our trade if they substitute.

FINED \$108,000 FOR REBATING

Penalty Imposed on New York Central for Favors to Sugar Company.

NEW YORK, Oct. 19.—Fines totalling \$108,000—\$18,000 on each count of six counts, were today imposed upon the New York Central and Hudson River railroad by Judge Holt, in the United States district court, on a charge of granting rebates to the American Sugar Refining Company.

In the case of Frederic L. Pomeroy, assistant general traffic manager of the New York Central, the court imposed a fine of \$1,000 on each of the six counts in the indictment, a total of \$6,000. Pomeroy is the man who made the arrangements for granting the rebates.

Upon the plea of Austin G. Fox, attorney for the defendants, the court granted a stay of execution of sixty days pending an appeal to the supreme court, where Fox declared he will take the case at once.

MRS. MAY VERY ILL; CASE AGAIN DELAYED

The arraignment of Mrs. Jennie L. May, indicted for assault with intent to kill, causing the death of Lucien Conen, a member of the Marine Band, September 27, 1905, today was for a third time postponed on account of the illness of the accused.

Creed M. Fulton, of Leckie, Fulton and Cox, counsel for Mrs. May, said today that she will be taken to a local hospital tomorrow to have an operation performed.

Boys' Trousers, Suits and Reefers

We ever keep in mind this fact: The growth of this business depends in large measure upon our service to the boys of today; for they will be the men of tomorrow.

Our preparations this season have been made on a broader scale than ever before—with that for our goal. Greater diversity of fabrics and styles, including some exclusively shown by us; and, thanks to the power of the Saks organization, greater values than we have seen anywhere else. Examples:

At 50c BOYS' TROUSERS—worth 75c and 85c. Fashioned of such popular fabrics as corduroy, blue and black chevrons and fancy mixtures, finished with taped seams, patent waistbands and patent buttons. Sizes 3 to 10 years.

At \$2.45 BOYS' DOUBLE-BREADED SUITS—with two models, and of fabrics that give long service. Brown overalls and gray striped effects. Sizes 7 to 16 years.

At \$3.95 BOYS' NOVELTY SUITS—in the ever-favored sail-fabric or blouse style. The fabrics were specially selected for these suits—the making supervised from the very beginning—so that they are exceptional in every way. Provided with all the latest style touches. Sizes 3 to 7 years.

At \$4.75 BOYS' DOUBLE-BREADED SUITS—with two pairs of trousers, one in the straight, the other in the Knickerbocker style. Fashioned of well-wearing light and dark weaves, and the tasteful new grays are among them. Sizes 7 to 17 years.

At \$5.00 BOYS' REEFERS—fashioned of that most serviceable of fabrics, a fine all-wool frieze, in blue or Oxford gray, and lined with red flannel. Finished with velvet collar, large stiff button and silk-embroidered patch emblems on sleeves. Sizes 5 to 14 years.

FOR FRIDAY AND SATURDAY Boys' regular 25c Hosiery at 19c

With permission for you to choose from any twenty-five Hosiery in the boys' shop at nineteen cents. It is simply another way of strengthening old friendships and making new friends for this best of all boys' shops.

Fast-black dyed Hosiery, including some of the most widely advertised brands. Narrow and corduroy ribbed styles, with reinforced knees, heels and toes, to increase their wearing qualities.

Men's Snappy "Bench-Made" Shoes at \$3.95—worth \$5 and \$6

By worth we mean that these Shoes were actually built to sell at five and six dollars—the maker does not make shoes to sell for less. More than that, he is building his shoes with more than usual care because he is concentrating his efforts on one or two lines—means to make them so good that no other maker can do as well. It would seem that he has already attained his aim—these "Bench-made" Shoes are quite exceptional.

Fashioned on custom-made lasts, in snappy shapes that catch the young men's fancy on sight; and bench-made at the points where being bench-made means the most.

The leathers are gun-metal calf and patent calf; Blucher and button styles. The button shoes incorporate a new idea; the buttons are real gun-metal. Silk-stitched throughout, and even the buttonholes are worked in silk.

Men's \$1.50 Walking Gloves at \$1.25

Fashioned of selected cape leather, in the popular English outseam style, and finished with self-stitching on the back. All regular sizes, in regular and cadet lengths.

The Karlton \$3 Derby for Men

If there was ever a hat that "bounded into favor," that hat is the Karlton. It has sustained our first judgment—that it was the most distinctive and the best built hat we had seen up to that time to sell at three dollars.

The Karlton is a better hat today than it was then; for we had more ideas about hat-making ourselves, and we've had them incorporated in the new fall shapes we are now showing.

We present the Karlton in two very distinct shapes.

The "Herald Square," which is a favorite in America's greatest center, and appeals particularly to young men.

The "Prince of Wales," which reflects the prevailing style in the English style-center, and appeals more strongly to older men.

—and the two shapes come in proportions to fit every face and every stature.

We have the sole agency for the Karlton—it is sold only in the Saks stores.

Of course, we sell Stetson Hats—the standard light-weight and self-conforming shapes, and others made exclusively for us. Three-fifty for the usual four-dollar quality.

SAM JONES' REMAINS IN STATE AT ATLANTA

ATLANTA, Ga., Oct. 19.—The remains of Sam P. Jones, the evangelist, who died suddenly Monday while on a train en route to his home in Cartersville to celebrate his fifty-ninth birthday, are today lying in state at the capitol and being reviewed by thousands of people.

This is the first time in the history of the State that a minister has been accorded this honor.

The body will rest in a vault at West View until a marble mausoleum can be built in Cartersville. Memorial services will be held at the Baptist Tabernacle in his memory Sunday afternoon.

BAR TO TRADE.

The Province of Quebec, Canada, has a new license law respecting non-resident commercial travelers employed by persons having no place of business in Canada. Under this law a commercial traveler doing business in that province must pay from \$100 to \$400 per annum license.

MARYLAND ASSOCIATION BEGINS CONVENTION

A two days' convention of the Maryland Association began at 11 o'clock this morning in the New Church, Sixteenth and Corcoran streets. Dr. Sewall, pastor of the church, presided.

The morning meeting was given over to a ministers' conference during which a paper was read by the Rev. Arthur Mercer, of Baltimore, on "The Supernatural in the Old Testament Histories."

AFFECTIONATE FIGHTERS HISSED NEW YORK, Oct. 19.—One of the poorest exhibitions of sparring ever witnessed at the Longacre Athletic Club was furnished last night by Ben Carter and Lew Meyers in the main bout.

For six rounds they remained in the ring without either boy striking a decisive blow. They feinted and eluded throughout, and were hissed at the end of each round.

Quality Does It!

No advertising expenditure, however small or however large, can be made profitable unless it builds up a demand for the goods advertised.

That means that people who are induced through the advertising to buy the cigars must continue to buy them indefinitely in order to bring profit to the manufacturer.

The matter of greatest importance to us then, is to make our cigars so plainly better than those made by any other manufacturer, that we may win increasing public patronage and increase our profits accordingly.

The NEW Gremo Cigar—5c.

represents the policy of giving improved values at lower cost, through our new scientific methods of manufacture. The best quality that can be produced and sold for 5c.—equals the average 8-for-25c. cigar.

You are safe in buying any brand bearing the "A" (Triangle A) merit mark.

The "A" (Triangle A) merit mark on the box is our guarantee!
